

September 2015

Dear Eaton Electrical Division Customer,

The purpose of this notification is to clarify Eaton's forthcoming logo and branding changes.

The former electrical division of Cooper Bussmann was acquired by Eaton in November 2012 and is now part of Eaton's Industrial Control and Protection Division (ICPD) in the Europe, Middle East and Africa region. As part of the Eaton integration process, Cooper Bussmann will transition to an Eaton product series, using the Eaton logo and branding; all other logos will be removed. Currently, as part of this transition, previous legacy Cooper Bussmann product labels, packaging, technical documents and product collateral are being transitioned to Eaton's Bussmann series.

Our proud tradition continues as a product series within Eaton; i.e., Bussmann series represents the Cooper Bussmann (Electrical) line of fusible circuit protection products. The Eaton brand and logo replaces Bussmann® and Cooper Bussmann® logos.

While some product markings may go away or change, the organizational and branding changes do not impact product form, fit, or function of current or future product designs. The Cooper Bussmann part numbers will not change as a result of the name change to Eaton.

Eaton values its partners, customers, and vendors and looks forward to continuing to strengthen and build these relationships. You can be confident that the integration of our product lines into the Eaton brand will build on our reputation of providing leading edge products and technology. For questions regarding branding please contact your local sales representative or alternatively our customer service team.

Eaton is a power management company with 2014 sales of US\$22.6 billion. Eaton's innovative technologies help customers manage electrical, hydraulic and mechanical power more reliably, efficiently, safely and sustainably. Eaton has approximately 100,000 employees and sells products to customers in more than 175 countries. For more information, visit www.eaton.com/bussmannseries

Yours faithfully

Simon Pinkney
